Annexure-I (C&D Waste) 2024-25

Sr. No.	Name of ULB	Collection	Storage	Transportation	Disposal/Remarks
1.	M Corp. SHIMLA	- Population- 1,69,578 - Total quantity of collected of C&D waste per day 30.99 TPD - Total quantity of C&D waste collection per day:- 30.99 - Lean and peak period generation per day: Lean period- December-January : almost Nil (depending upon snowfall) Peak period- May-Sept. : 100 TPD - The C&D Waste is being utilized for back filling against the retaining walls and covering the waste rejects at the landfill site at Bhariyal. 1 No. of landfill sites used with the area 9.77Hac.	While providing permission for new construction/addition/ alteration of the waste building, the assessment of the waste generation is being done and the builders/ house owner is asked to deposit/transport the waste to the storage facility at Bhariyal by deploying their own vehicle.		- Yes, proposal has been made to improve C&D Waste Management practices: yes, : 1 Kh. No. 498/1 area measuring 1600 sqr. Mtr. At mauja up Mohal Sanjauli chock. 2 khasra no. 47/1 area measuring 801.00sqr.mtr. at Mouja sanjauli Chowk (near IGMCM bus stand). 3 khasra no. 56/1 area measuring 22674-98 sqr. Mtr. At Mouja up Mohal Bamloi. 4 khasra no. 1210/7/1 area measuring 5606.11 sqr. Mtr. Up mohal Kaith-II, tehsil & District Shimla at GoI Pahari, Annandale. - Presently waste is being used for back filling and covering the waste rejects at the land fill site. - To check unauthorized operations- Action as per HPMC Act, 1994. - Nearby all the 4-slum provided with C&D waste receptacles facilities. - Yes, Municipal magistrate appointed for taking penal action for non-compliance with rules.

Sr. No.	Name of ULB	Collection	Storage	Transportation	Disposal/Remarks
					• Yes C&D waste used in sanitary landfill.

2	MC RAMPUR	- Population- 9239. - Any figure for lean period and peak period generation per day: - No. - Total quantity of C&D waste processed/recycled Manufactured sand: - Ready- mix concrete (RMC) Paving blocks. - C&D waste collected per day 0.38 tpd.	All storage bins/collection spots are not attended for daily lifting.	12 no. of Tricycle used for transportation.	1 no. of landfill site available with area used. - No weigh-bridge facility used for quantity estimation. - No C&D waste used in sanitary landfill (for solid waste) as per schedule III. - Provisions are available to check unauthorized operations of: - Regular visits paid on river bank and wet. Awareness generation activates
3	MC THEOG	- Population- 4351 - Total quantity of C&D waste generated during the whole year in metric Ton. 67.67 - Average generation of C&D waste: 0.18 - Manufactured sand: - Ready -mix concrete.		1 no. Truck used for transportation of C&D waste.	1 no. of landfill site used - No proposal has been made to improve C&D waste management practices. - Municipal magistrates are not appointed for taking penal action for non-compliance with these rules. - No provisions are available to check unauthorized operations. - No efforts been made to involve PPP for processing of C&D waste.

4	MC ROHRU	- Population 6875 - Total quantity of C&D waste generated during the whole year: - Nil - Processing/recycling Facility set up in the city: - Landfill site.	- Area or location or plot or societies collection of C&D waste: - Temporary C&D waste site near new bus stand ward no.-3. - No area or location or plot or societies collection is practiced. - All storage bins/collection spots are not attended for daily lifting.	No Transportation facility available	1 no. of landfill site used near new bus stand with 918 sqm area used. - No weigh-bridge facility used for the quantity estimation. - Construction and Demolition waste used in sanitary landfill as per Schedule-III: - Temporary - C&D waste site near new bus stand ward No. 3 - Provisions are available to check unauthorized operation by supervisor. - Municipal magistrates are not appointed for taking penal action for non-compliance with these rules.
5	NP NARKANDA	- Population 901. - Total quantity of C&D waste generated during the whole year in metric Ton: 0.85 Tones. - Total quantity of C&D waste disposed by land filling without processing or fill low lying area is 0.85	- Area or location or plot or societies covered for collection of C&D waste: 400 m² near circuit house Road - No large project (including roadways project) covered. - No area or location or plot or societies collection is practiced - All storage bins/collection spots are not attended for	No transportation facility available	1 no. of land fill site used with 350m² - No weigh-bridge facility used for the quantity estimation. - Yes, C&D waste used in sanitary landfill as per Schedule-III. - Municipal magistrates are not appointed for taking penal action for non-compliance with these rules.

			daily lifting.		
6.	MC SUNNI	- Population: 2591 - No figure for lean period and peak period generation. - No processing/ recycling facility set up in the city	No, storage bins/ collection spots are attended for daily lifting	Nil	- A site for C&D facility has been identified At National Highway Karianh near Rana Home Stay and FCA case is under process - No weigh-bridge facility used for the quantity estimation - No C&D waste used in sanitary landfill (for solid waste) as per Schedule III - No Proposal has been made to improve C&D waste management practices.
7	NP CHOPAL	- Population 1851 - No figure for lean period and peak period generation. - No processing/ recycling facility set up in the city	Area or location or plot or societies covered for collection of C&D waste: - 728 sqmt.	No transportation facility available	01 no. of land fill site used with area 728 sqmt. - Yes, proposal has been made to improve Construction and Demolition waste management practices. - No, efforts been made to involve PPP for processing of Construction & Demolition waste. - No, weigh-bridge facility

					used for the quantity estimation No, C&D waste used in sanitary landfill (for solid waste) as per Schedule III
8	NP KOTKHAI	- Population 1190 - No figure for lean period and peak period generation. - No processing/ recycling facility set up in the city	No storage bins/collection spots are attended for daily lifting.		- No landfill site available. - No weigh-bridge facility used for the quantity estimation. - Construction and demolition waste not used in sanitary landfill as per Schedule-III. - No efforts been made to involve PPP for processing of C&D waste.
9	NP JUBBAL	Total quantity of C&D waste generated in the whole year: - 7cum	- Yes, area or location or plot or societies covered for collection of C&D Waste. - Area or location or plot or societies collection is practiced by Local Body.	NIL.	- Yes, Provisions are available to check unauthorized operations of: Encroachment on river bank or wet bodies. Unauthorized filing of low line areas. Mixing with solid waste Encroachment in Parks, Footpaths etc - No Municipal Magistrates appointed for taking penal action for non-compliance with these rules. - No efforts been made to involve PPP for processing

					of C&D waste • No weigh-bridge facility used for the quantity estimation. • No, proposal has been made to improve Construction and Demolition waste management practices.
10	NP Nerwa	• Population 2216 • No figure for Quantity and composition of C&D waste including any deconstruction waste. • No processing/ recycling facility set up in the city	• No, area or location or plot or societies covered for collection of C&D waste. • No, storage bins /collection spots are attended for daily lifting.	• Transportation through 01 no. Truck-Hydraulic,	• No, Slums are provided with C&D waste receptacles facilities. • No, provisions are available to check unauthorized operations. • No, efforts been made to involve PPP for processing of C&D waste \ • No, proposal has been made to improve C&D waste management practices • No, Municipal magistrate appointed for taking penal action for non- Compliance with these rules • C&D waste not used in sanitary landfill as per Schedule-III • No, weigh-bridge facility used for the quantity estimation

11	NP Chirgaon	- Population 3383. - No figure for Quantity and composition of C&D waste including any deconstruction waste. - No processing/recycling facility set up in the city.	- No, area or location or plot or societies covered for collection of C&D waste. - No, storage bins /collection spots are attended for daily lifting.	No transportation facility available	- No, Slums are provided with C&D waste receptacles facilities. - No, provisions are available to check unauthorized operations. - No, efforts been made to involve PPP for processing of C&D waste \ - No, proposal has been made to improve C&D waste management practices - No, Municipal magistrate appointed for taking penal action for non- Compliance with these rules - C&D waste not used in sanitary landfill as per Schedule-III - No, weigh-bridge facility used for the quantity estimation
12	M Corp. SOLAN	- Population 47418 as per 2011 census (20000 additional floating population). - No processing/ recycling facility set up in the city.	- No, area or location or plot or societies covered for collection of C&D waste. - No, storage bins /collection spots are attended for daily lifting.	01 no. Mahindra Pickup available.	- Proposal has been made to improve C&D waste management practices: - MC Solan has identified one site near APMC and request has been sent to Deputy Commissioner, Solan for change of ownership of land on the name of MC Solan. - Yes, Provisions are available to check unauthorized

					operations of: Encroachment on river bank or wet bodies. Unauthorized filing of low line areas. Mixing with solid waste Encroachment in Parks, Footpaths etc - No, Slums are provided with C&D waste receptacles facilities. - No, efforts been made to involve PPP for processing of C&D waste \ - No, Municipal magistrate appointed for taking penal action for non- Compliance with these rules - No, C&D waste used in sanitary landfill as per Schedule-III - No, weigh-bridge facility used for the quantity estimation
13	MC NALAGARH	- Population 10702 (5000 floating population). - Any figures for lean period and peak period generation per day: 0.02-0.5 tpd - Average generation of C&D waste (TPD): 0.01-0.04 tpd. - Total quantity of C&D	- Area or location or plot or societies covered for collection of C&D waste:- 4 spots has been identified for C&D collection centres. - No storage bins/collection	01 no. tractor and 1 no. of JCB hired through contractor is purposed. 1 no. of dumper placers available.	1 no. of landfill site used with 1 no. of area used. - No weigh-bridge facility used for the quantity estimation. - No, Construction and demolition waste used in sanitary landfill as per Schedule-III. - Proposal has been made to

		waste collected per day (TPD):Not collected. Quantity of C&D waste processed/ recycled: - C&D site has been identified & notified (Yes at ward no 3, nalagarh).	spots are attended for daily lifting. Lifting of C&D waste storage bins is manual and equipment used.		improve C&D Waste Management practices: - Yes, C&D waste sent for filling in low lying area. - Yes, provisions are available to check unauthorized operations of. - No, Municipal Magistrate appointed for taking penal action for non-compliance with these rules.
14	MC PARWANOO	- Population 28758 (including Floating population). - No processing/ recycling facility set in the city.	- All storage bins/collection spots are not attended for daily lifting is done manually. - Area or location or plot or societies covered for collection of C&D waste: Sector-3 near negi petrol pump parwanoo but one more C&D waste site is required being identified with the help of HIMUDA and revenue authorities. - No area or location or plot or societies collection is practiced	--Nil--	1 no. of landfill site used having area 9500 Sq.mtr - No, Construction and demolition waste used in sanitary landfill as per Schedule-III. - No, efforts been made to involve PPP for processing of C&D waste - No, Municipal Magistrate appointed for taking penal action for non-compliance with these rules.
15	M Corp. BADDI	- Population-29911 (90,000 floating) - Any figures for lean	Area or location or plot or societies covered for	Transportation: - Tractor-Trailer: - 2, Dumper-placer: - 1,	1 no. of landfill site used with 1 no. of area used. - No weigh-bridge facility

		period and peak period generation per day:.08-0.10 tpd. • Average generation of C&D waste (TPD): 0.05-0.10 tpd. • Quantity of C&D waste collected per day: - Not collected. • Any processing/recycling facility set up in the city: -No • Quantity of C&D waste processed/ recycled: - C&D site has been identified & notified (Yes at vill. Judi kalan, baddi).	collection of C&D waste:- 4 spots has been identified for C&D collection centres. • Area or location or plot or societies collection is practiced: - Not yet started. • No storage bins/ collection spots are attended for daily lifting. • Lifting of C&D waste storage bins is manual and equipment used.	Others: - 2no of JCB hired through contractor.	used for the quantity estimation. • No, Construction and demolition waste used in sanitary landfill as per Schedule-III. • Proposal has been made to improve C&D Waste Management practices: - Yes, C&D waste site is being seen. • Yes. Provision to check unauthorized operation • No, slums are provided with C&D waste receptacles facilities. • No, Municipal Magistrate appointed for taking penal action for non-compliance with these rules.
16	NP ARKI	• Population-3038.	• No, storage bins/ collection spots are attended for daily lifting.	--Nil--	• No weigh-bridge facility used for quantity estimation. • No C&D waste used in sanitary landfill (for solid waste) as per schedule III. • Yes, Provision to check unauthorized operation: By Supervisor. • No, slums are provided with C&D waste receptacles facilities. • No, Municipal Magistrate appointed for taking penal action for non-compliance with these rules.

17	NP Kandaghat	- Population-2598 as per census 2011 - C&D site has been identified & notified.	- Area or location or plot or societies covered for collection of C&D waste:- 4 spots has been identified for C&D collection centers. - No storage bins/collection spots are attended for daily lifting	--Nil--	- Yes, Provision to check unauthorized operation: Monitoring by NP Authority - Yes, Municipal Magistrate appointed for taking penal action for non-compliance with these rules.
18	MC NAHAN	- Population-29014 (As per 2011 census). - For lean period and peak period generation per day : Avg. 0.7 TPD - Average generation of C&D waste – Avg. 0.7 tpd. - Quantity of C&D waste collected per day 0.5 Tpd. - Any processing/ recycling facility set up in the city :- proposal is made yet.	Area or location or plot or societies collection is practiced: No	--Nil--	- Used 2.5 bigha. Area. - Yes weigh-bridge facility used for quantity estimation. - Construction and demolition waste not used in sanitary landfill as per Schedule-III. - No area or location or plot or societies collection is practiced - Proposal made to improve C&D Waste Management practices:- MC Nahan has setup plan for collected raw materials utilized mc own work like construction of path and roads. - Efforts been made to involve PPP for processing of C&D waste:- Dry waste (self-utilized by MC for Construction and &Roads.) - Provision to check unauthorized operation-Site inspection is being

					done regularly by M.C.
19	MC PAONTA	- Population-25183 (As per 2011 census). - For lean period and peak period generation per day : Avg. 0.5 TPD - Average generation of C&D waste – Avg. 0.5 tpd. - Quantity of C&D waste collected per day 0.4 Tpd. - Any processing/recycling facility set up in the city :- proposal is made yet.	- Storage bins/collection spots are attended for daily lifting:- (C&D waste used in plotting at Paonta Sahib). - Lifting of C&D waste from storage bin is done manual.	--Nil--	- Yes, weigh-bridge facility used for quantity estimation. - Construction and demolition waste not used in sanitary landfill as per Schedule-III. - Proposal made to improve C&D Waste Management practices:- The proposal is made already for better mechanism of C&D waste processing. - Provisions to check unauthorized operation – Site inspection is being done regularly by MC. - Yes, Municipal Magistrate appointed for taking penal action for non-compliance with these rules.
20	NP RAJGARH	- Population-3083 (As per 2011 census). - Quantity of C&D waste generated during the whole year in metric ton: ULB have no land for C&D waste. - Total quantity of C&D waste processed/recycled (in metric ton): NIL; others, if any, please specify: Used in land filling in private land.	- Area or location or plot or societies covered for collection of C&D waste : N.P. Town. - No storage bins/collection spots are attended for daily lifting. - Lifting of C&D waste from storage bin is done manual Mechanical others.	Transportation- By the householder themselves.	- No land sites used. - No weigh-bridge facility used for quantity estimation. - Construction and demolition waste not used in sanitary landfill as per Schedule-III. - Whether any proposal has been made to improve C&D waste management practices: Proposal has been sent to DC office and

					UD Shimla regarding land for establish C&D plant. It is being dumped in private land filling by the generator themselves. - Provisions available to check unauthorized operations of: being charged as per the provisions of MSW Rules, 2016 and HPMC Act, 1994. - No, Municipal Magistrate appointed for taking penal action for non-compliance with these rules.
21	MC BILASPUR	Population-13654 (As per 2011 census).	- No, quantity of C&D waste disposal by land filling without processing or filling low laying areas. - No, storage bins/ collection spots are attended for daily lifting. - Lifting of C&D waste from storage bin is done manual Mechanical others.	--Nil--	- Construction and demolition waste not used in sanitary landfill as per Schedule-III. - To check unauthorized operation – - Regular visits paid on river bank and wet bodies' sites to check unauthorized operation. - Awareness generation activities. - Committee has been constituted for taking penal action for non-compliance with rules.
22	MC SHRI NAINA DEVI JI	Population 1204 (As per 2011 census).	- Storage facilities- Area covered for collection of C&D waste 0.82 Sqm. - No, storage	--Nil--	2 no of landfilling site used, area used 15 sqm. - Construction and demolition waste not used in sanitary landfill as per Schedule-III.

			bins/collection spots are attended for daily lifting. Lifting of C&D waste from storage bin is done:- Manual mechanical others.		- Any proposal has been made to improve C&D waste management practices: - No - Provision to check unauthorized operation: Field visits by officials of this ULB. - Yes, municipal magistrates have been appointed for taking penal action for non-compliance with these rules.
23	MC GHUMARWIN	Population –7899 (As per 2011 census)	All storage bins/collection spots are not attended for daily lifting.	--Nil--	- No, weigh-bridge facility used for quantity estimation. - No, C&D waste not used in sanitary landfill. - To check unauthorized operation – As per HP Municipal Act,1994. - No, Committee has been constituted for taking penal action for non-compliance with rules.
24	NP TALAI	- Population 2372 (As per 2011 census) at present approximated 4610. - Quantity of C&D waste generated during the whole year 8.50 ton approx. - Average generation of C&D waste: 0-0.12 TPD. - Quantity of C&D waste collected per day: Not collected. - Total Quantity of C&D waste processed/	- Area or location or plot or societies covered for collection of C&D waste: no. - Lifting of C&D waste from storage bin is done manual Mechanical others.	1 no. of truck-Hydraulic purposed.	01 no. of landfill sites used. - No weigh-bridge facility used for quantity estimation. - No, Construction and demolition waste not used in sanitary landfill as per Schedule-III. - Any efforts been made to involve PPP for processing of C&D Waste:- Step taken - To check unauthorized operation – As per

		recycled (in MT): No. Total quantity of C&D waste processed/recycled (in metric ton): 8.50 MT to be utilized by the residents for filling in plinths.			Municipal Act, 1994. No, municipal magistrates have been appointed for taking penal action for non-compliance with these rules.
25	M Corp. MANDI	- Population – 41375 - Quantity of C&D waste generated during the whole year in metric ton: 5500 MT - For lean period 10 tpd and peak period 25 tpd generation per day: - Average generation of C&D waste: 7.50 tpd.	All storage bins/collection spots are not attended for daily lifting.	--Nil--	01 no. of landfill sites used with area 800 sqm. - No weigh-bridge facility used for quantity estimation. - Construction and demolition waste not used in sanitary landfill as per Schedule-III. - Any proposal has been made to improve C&D waste management practices: - Yes more sites are being identified. - Provision to check unauthorized operation: Junior Engineer & Work supervisor have assigned the duty to check. - No, municipal magistrates have been appointed for taking penal action for non-compliance with these rules.
26	MC SUNDERNAGAR	- Population-24344. - C&D waste generated during the whole year 450 ton. - For lean period 10 TPD and Peak Period 25TPD. - Average generation of C&D waste: 2.19 TPD.	Area or Location or plot or societies covered for collection of C&D waste: - Area falling in MC Sunder Nagar.	--Nil--	- Total quantity of C&D waste disposed by land filling without processing or filling low lying areas: - area used 800 Sqm. - Construction and demolition waste not used in sanitary landfill as per

			Storage bins/collection spots are not attended for daily lifting.		Schedule-III. - Provision to check unauthorized operation: Inspection is being done time to time. - No, municipal magistrates have been appointed for taking penal action for non-compliance with these rules.
27	MC NERCHOWK	Population-8528.	- Area or location or plot or societies covered for collection of C&D waste: No. - All storage bins/collection spots are attended for daily lifting:- No.	--Nil--	- No weigh-bridge facility used for quantity estimation. - Construction and demolition waste not used in sanitary landfill as per Schedule-III. - Proposal made to improve C&D waste management practices: - No - Any efforts been made to involve PPP for processing of C&D Waste: - No - Provisions are available to check unauthorized operations of: - No - Yes, municipal magistrates have been appointed for taking penal action for non-compliance with these rules.
28	MC SARKHAGHAT	- Population-5433 - Any processing/ recycling facility set up in the city: site identified for processing of C&D waste near Dangoi Nallah, Ward No. 3 Jamsai. But the site has been rejected during the joint	--Nil--	--Nil--	

		inspection. Identification of new site is under process.			
29	MC JOGINDER NAGAR	- Population – 5337 - Quantity of C&D waste generated during the whole year in metric ton:-3 ton average per day.	--Nil--	--Nil--	--Nil--
30	NP REWALSAR	- Population-1821 (as per census 2011). - Quantity of C&D waste generated during the whole year in metric ton:- 4 ton.	- Area or location or plot or societies covered for collection of C&D waste: NP Town area. - Lifting of C&D waste from storage bin is done manual.	Transportation: - 1 no. of dumper placer purposed.	- No. of land fill sites used: - Back filling of R/wall and leveling the surface 4 ton. - No weigh-bridge facility used for quantity estimation. - Construction and demolition waste not used in sanitary landfill as per Schedule-III. - No proposal made to improve C&D waste management practices. - No efforts have been made to involve PPP for processing of C&D Waste. - Provision available to check unauthorized operation: supervision from time to time. - No, municipal magistrates have been appointed for taking penal action for non-compliance with these rules.

31	NP KARSOG	Population-2626.	--Nil--	--Nil--	No, municipal magistrates have been appointed for taking penal action for non-compliance with these rules.
32	MC KULLU	Population-18536 as per census 2011.	--Nil--	--Nil--	- Construction and demolition waste not used in sanitary landfill as per Schedule-III: - Temporary C&D Waste site at Hanumani Bag is being used by MC Kullu now. - Provision to check unauthorized operation: - In MC jurisdiction all land is vested with forest dept. and they are checking unauthorized operations. - Challaned under SWM Rules, 2016.
33	NP Nirmand	Population- 5000	Storage bins/collection spots are not attended for daily lifting.	Nil	- No weigh-bridge facility used for quantity estimation. - Construction and demolition waste not used in sanitary landfill as per Schedule-III. - Proposal has been made to improve C&D waste management practices: Transfer of Land is under process. - Yes, municipal magistrates appointed for taking penal action for non-compliance

					with these rules.
34	MC MANALI	- Population - 8095. - No processing/ recycling facility set up in the city.	- MC Area covered for collection of C&D waste. - All Storage bins/ collection spots are not attended for daily lifting.	--Nil--	- No weigh-bridge facility used for quantity estimation. - Construction and demolition waste not used in sanitary landfill as per Schedule-III. - No, area or location or plot or societies collection is practiced. - Yes, proposal has been made to improve construction and demolition waste management practices: Land is available for C&D waste at MC Manali. - No municipal magistrates appointed for taking penal action for non-compliance with these rules.
35	NP BHUNTER	Population - 4475	Lifting of C&D waste from storage bin is done manual		- There is no site under the jurisdiction of N.P Bhunter for construction and Demolition waste. - Proposal has been made to improve C&D waste management practices: - Site Identifications under process.

					• Yes, municipal magistrates appointed for taking penal action for non-compliance with these rules.
36	NP BANJAR	• Population- 1414 as per census 2011. • No land available for C&D waste.	• All Storage bins/collection spots are not attended for daily lifting.	--Nil--	• No weigh-bridge facility used for quantity estimation. • Proposal has been made to improve C&D waste management practices: - Land Identification is under process. • Construction and demolition waste not used in sanitary landfill as per Schedule-III. • Yes, municipal magistrates appointed for taking penal action for non-compliance with these rules.
37	M Corp. UNA	• Population-18722 as per census 2011. • Any figures for lean period and peak period generation per day: .013 TPD. • Quantity of C&D waste collection per day: -.013. • Status of the facility: - Land fill. • 1 no of Landfill site. • Whole area used for land fill.	• Lifting of C&D waste from storage bin is done Mechanical.	• NIL	• 1 no. of landfill site available and whole areas used for land fill. • No weigh-bridge facility used for quantity estimation. • Construction and demolition waste not used in sanitary landfill as per Schedule-III. • Any proposal has been made to improve construction and demolition waste management practices: - Being done. • To check unauthorized operation: –

					1. Junior Engineer time to time. 2. Sanitary Supervisor Check. • No, municipal magistrates have been appointed for taking penal action for non-compliance with these rules.
38	MC SANTOKGARH	• Population – 9363 as per census 2011.	• Area or location or plot or societies covered for collection of C&D waste :2Canal, Near Ghate wala Khuh, Ward No. 08, Santokhgarh.	--Nil--	• No weigh-bridge facility used for quantity estimation. • Construction and demolition waste not used in sanitary landfill as per Schedule-III. • Proposal to improve C&D Waste management Practices: Land for dumping of C&D Waste has been identified (Near Gatewala Khuh, Ward No. 08). • No, municipal magistrates have been appointed for taking penal action for non-compliance with these rules.
